Problems Output Debug Console Terminal Ports

Ask a question (or type 'exit'): constructor types

(venv) PS C:\Users\ADMIN\Documents\GitHub\Day9> python RAGRetrieveTrace.py

Answer:

The types of constructors to know are:

1. Default constructor
2. Parameterized constructor
3. Copy constructor
4. Move constructor (advanced C++)

DAY 11

WEEK 2

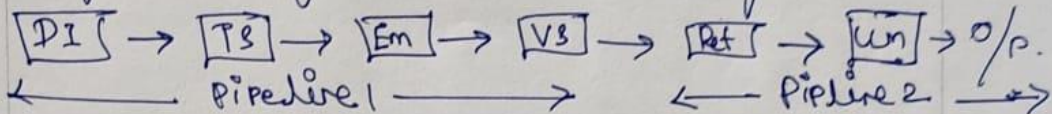

Topic: Introduction to RAG.

Takeaways

RAG → Potential Augmented Generation.
↳ AI models first searches for relevant information
RAG → Pipeline 1 and 2
Improves the basic Rag in a different way to
give better and more accurate.

Summary

They covered rag flow and types of rag improvement

Types of Rag → Self Rag, Corrective Rag, Fusion Rag
Bm 25+ re-rank

Today's Task

SUBMISSION STATUS	NOTES / REMARKS
☒ Submitted Task completed and shared	Understand Rag and the Pipeline Steps, as well as learned about different type of Rag for better accurate results.
☐ Not Submitted Will catch up tomorrow	

Tick the box only when it's true. Lying to yourself is the only real failure.
